

Product Comparison: Matrix ETERNITY Intercom System with Crystal Guard

Description	Matrix ETERNITY	Crystal Guard
Product Photograph	 <p>ETERNITY GE6S/GE12S</p>	 <p>G2K-128</p>
System Architecture		
Single Line Telephone Ports	120/240	128
Technology	32-bit RISC DSP based Distributed Processing Architecture	16 bit High Speed Micro-Controller Based SPC Space Division Multiplexing
Type of Switching	100% Non-Blocking	70.21% Non-blocking
Built-in System Resources		
Analog Input Port (AIP)	1(Built-in)	1
Analog Output Port (AOP)	1(Built-in)	1
Digital Input Port (DIP)	1(Built-in)	1
Relay Port (DOP)	1(Built-in)	1
Ethernet Port	1	–
RS232C (COM) Port	1	1
Parallel Printer Port	1	1
Multi-Party Conference	21 Participants (7 x 3 Participants)	12 Participants
Power Supply		
Input Supply	100-240 VAC, 47-63 Hz	220 VAC
Power Consumption	70 W (Typical)	100 W
Installation	Wall Mount, Table Top, 19" Rack Mount	Table Top
Redundancy	Yes	–
Embedded Features		
Wake-up Alarms and Reminders	Time, Daily, Future Date & Time, Remote	Time and Date
