Staycation frenzy: Guest wait for hours to check in at hotels

December 14, 2020

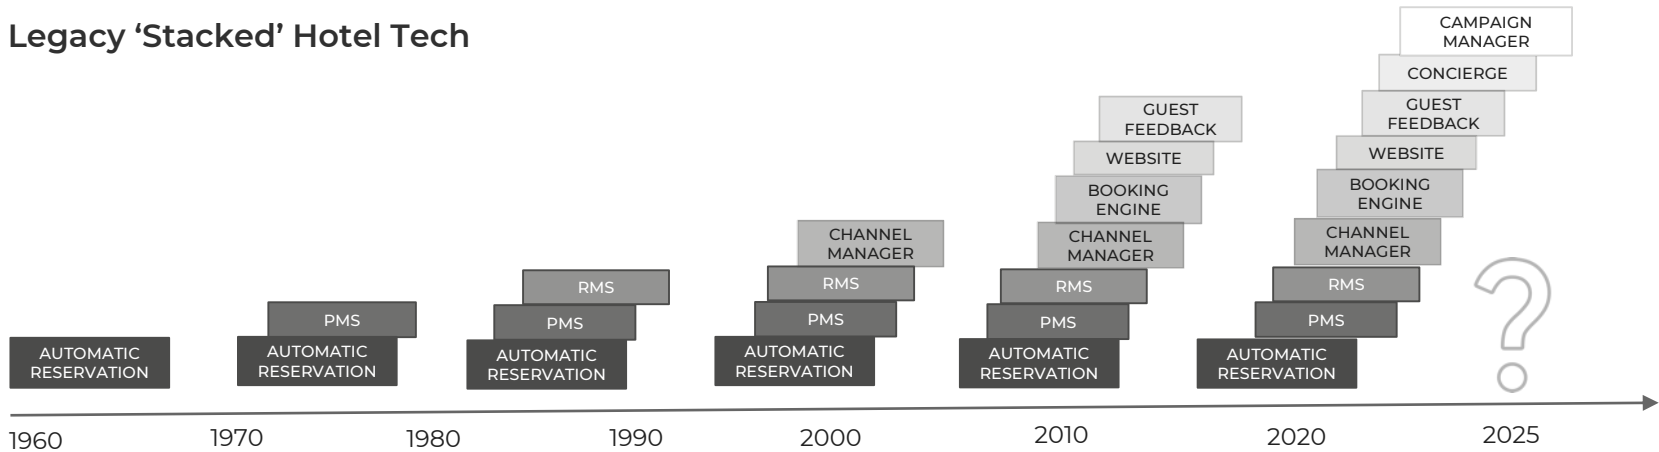

To Meet the Need for New Experiences Hotels Continue to Add Disparate Systems

Evolving Agile Consumer Tech

Legacy 'Stacked' Hotel Tech

What Challenges Do Hotels Face in Delivering These Experiences

What is Changing?

Thinning margins
And rising costs

Increasing CAC

Higher demand for
Seamless

How is it Impacting you?

Outsourced customer
acquisition

Guest ownership

Disjointed digital and
physical experience

Technological Challenges

Silo'd data

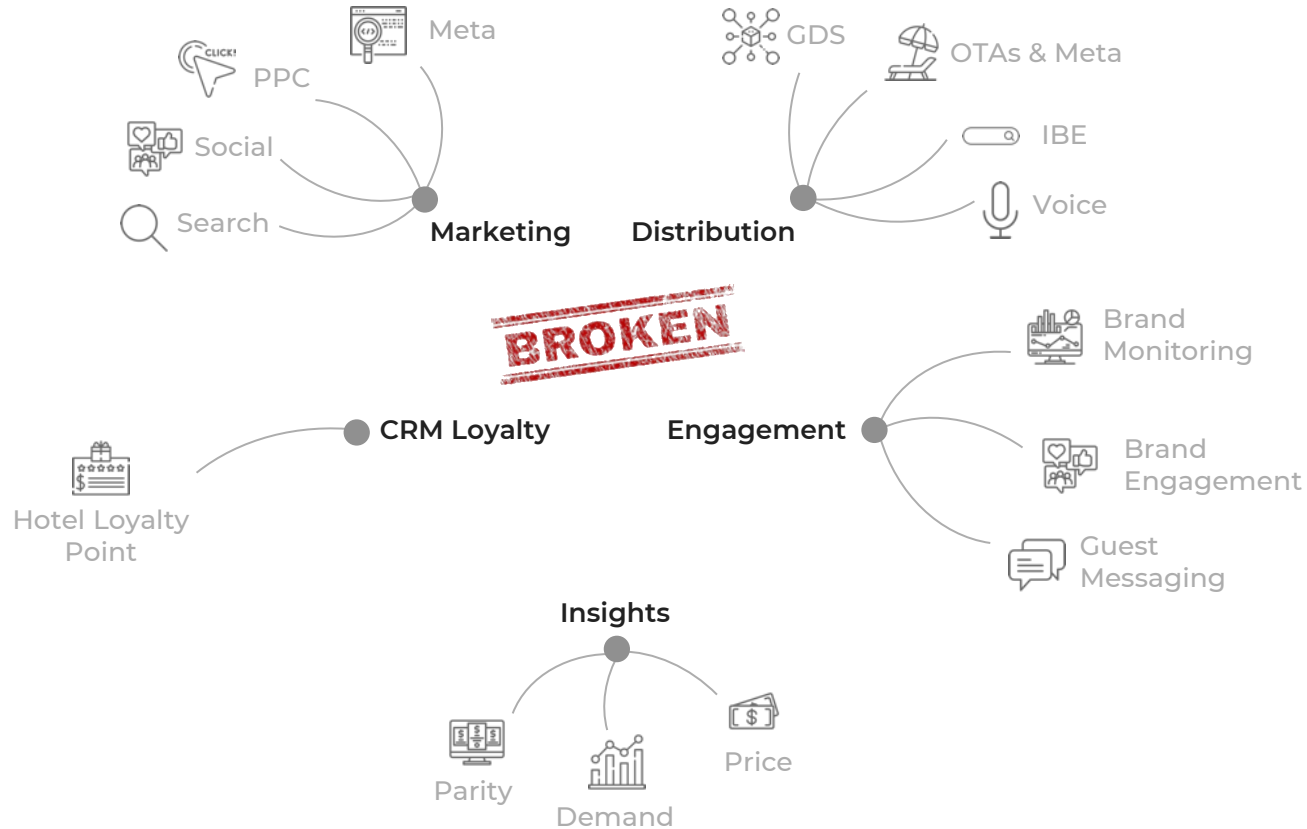

Data security

Poor data synthesis

How Can Hotels Deliver a Seamless Experience With A Broken Technology Stack?

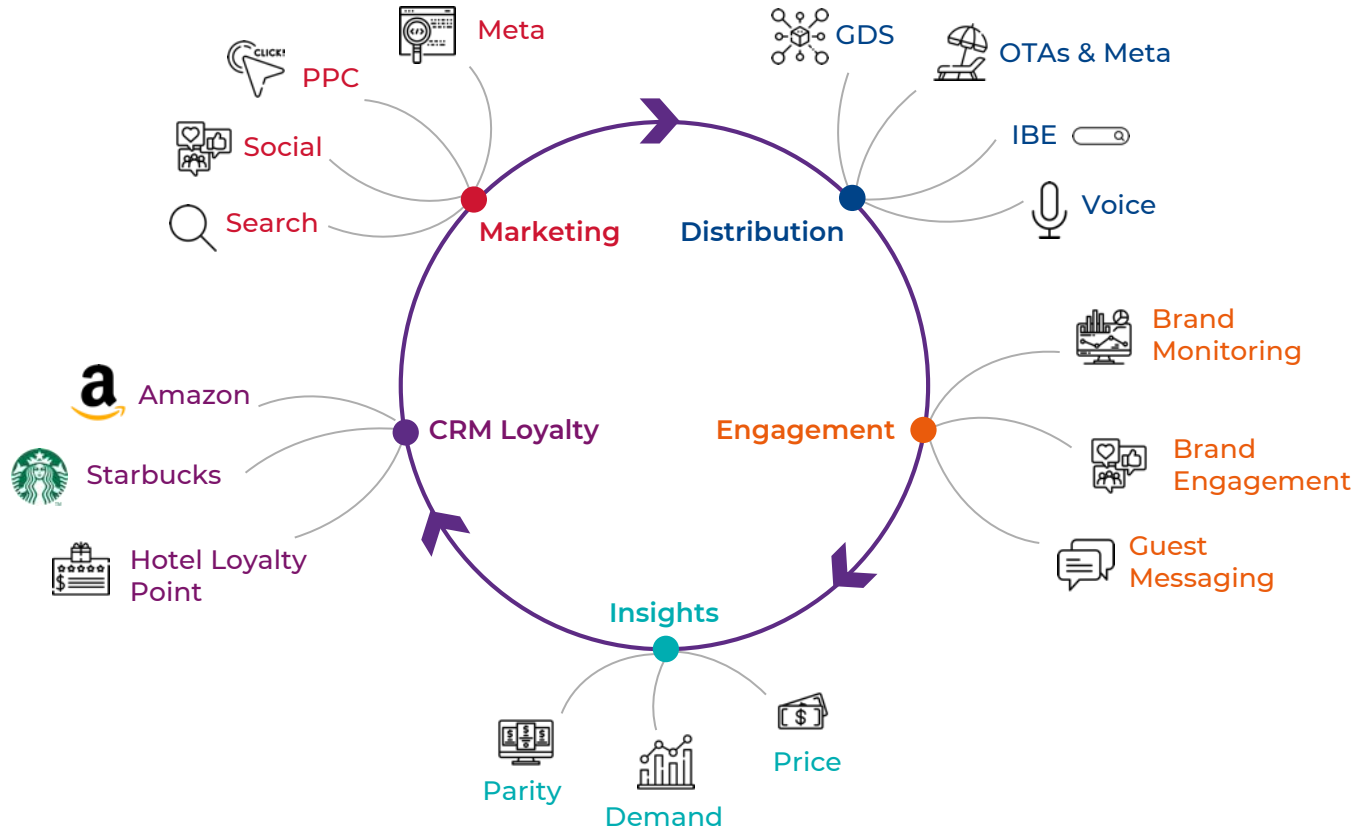

Problems are Many, the Answer is one:

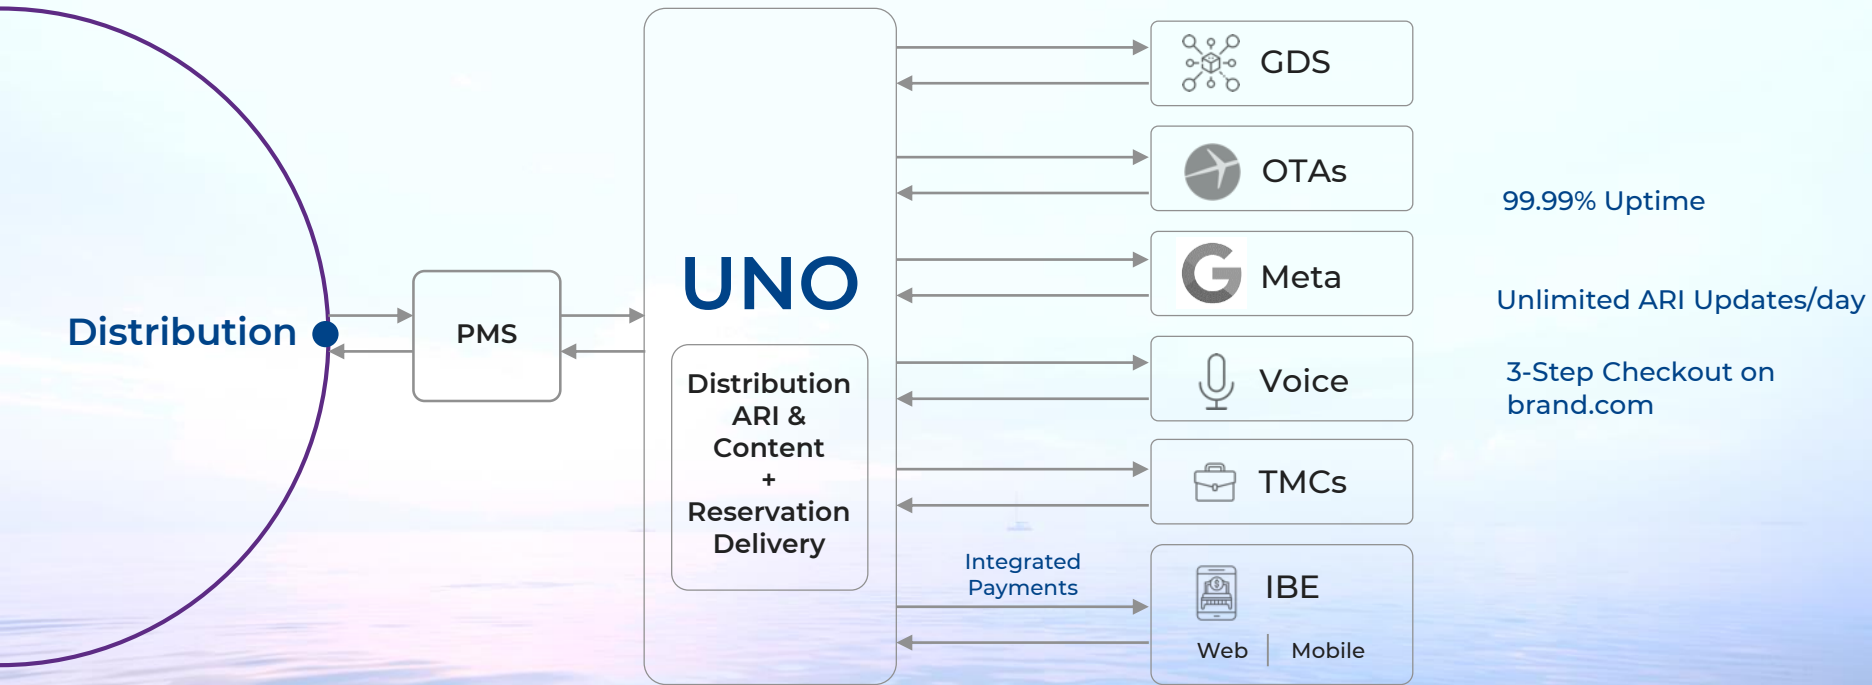

UNO

The revenue maximization platform that uses AI to provide your teams with interoperable and unified experiences to deliver customer delight and unlock new revenue

Content-AI

Hospitality's First AI-powered Content Platform to
Improve Conversions and Maximize Revenue

The current process of hotel content management limits the hotels to create impact with content

Completeness

- Collating content is manual
- Audit is manual and laborious
- No understanding of gaps
- No capability to assess quality

Consistency

- No defined standards for quality
- No central storage capability
- Content Disparity with partners
- No capability to Auto-tag

Conversion

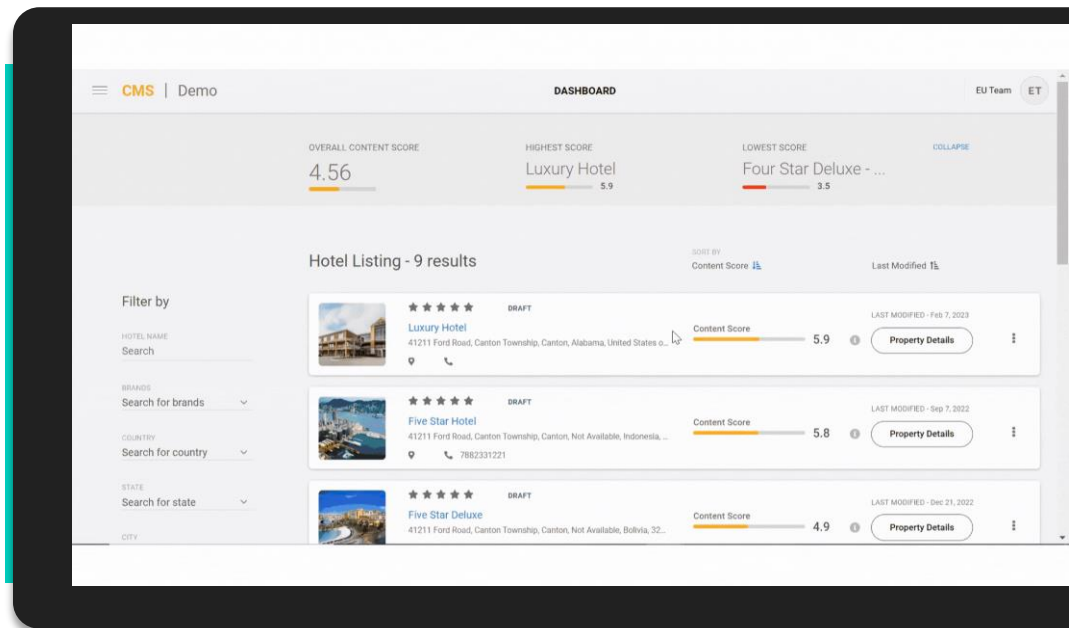

- No capability of enhancing images
- No agreed metrics to measure success
- No best practices defined

The solution lies in simplifying the content journey with a single solution

Transform data into insights with AI-backed content augmentation platform

- Image Auto Tagging
- Auto Image enhancement
- Property level content scoring
- Content Enrichment
- Built-in image editor

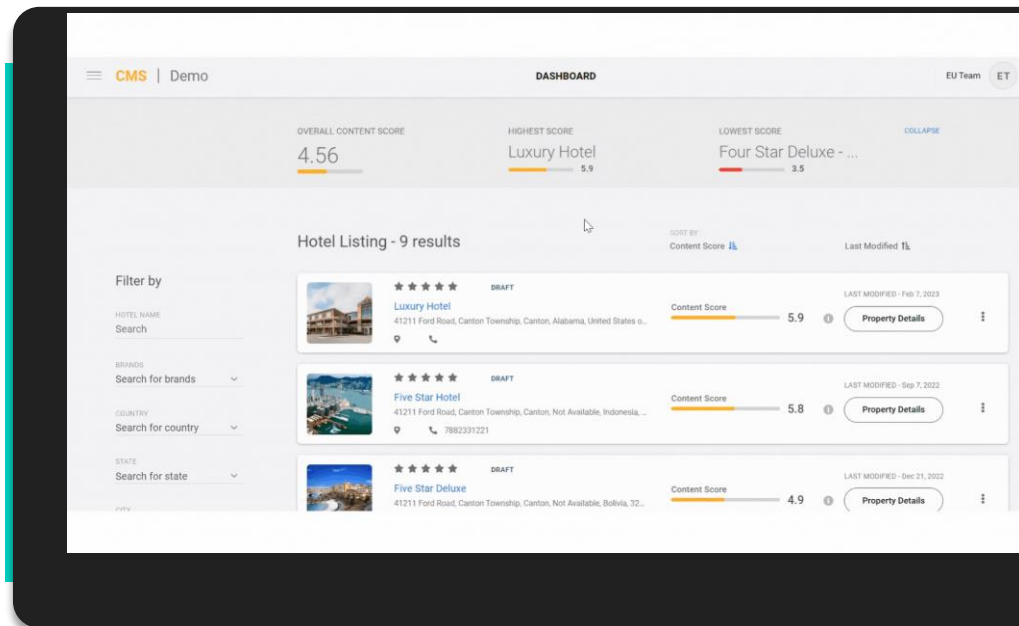

**50% effort saving every time
content is updated**

**Instantly identify gap
or missing information**

**Auto-match attributes of
the demand partners**

Create, organize, and maintain hotel's descriptive content with a centralized content platform

- Create and manage brands & properties
- Upload descriptive content and images
- Bulk image upload & categorization
- Wizard to showcase missing information
- Image management, tagging and quality scoring

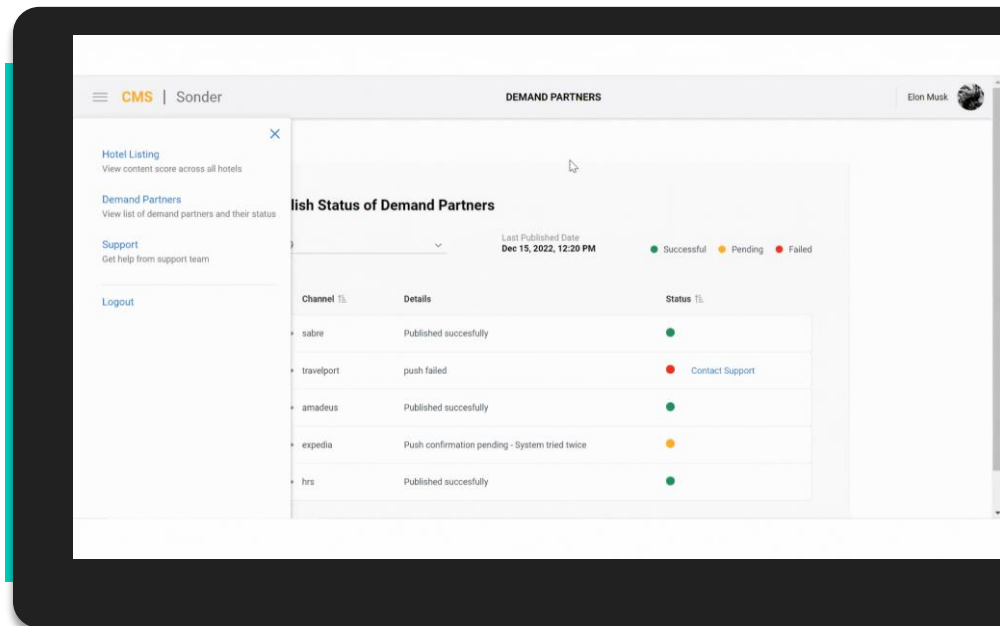

One location for all content

Keep all demand partners in sync

Centralized update tracking

Distribute accurate, consistent content across all demand partners with a single click

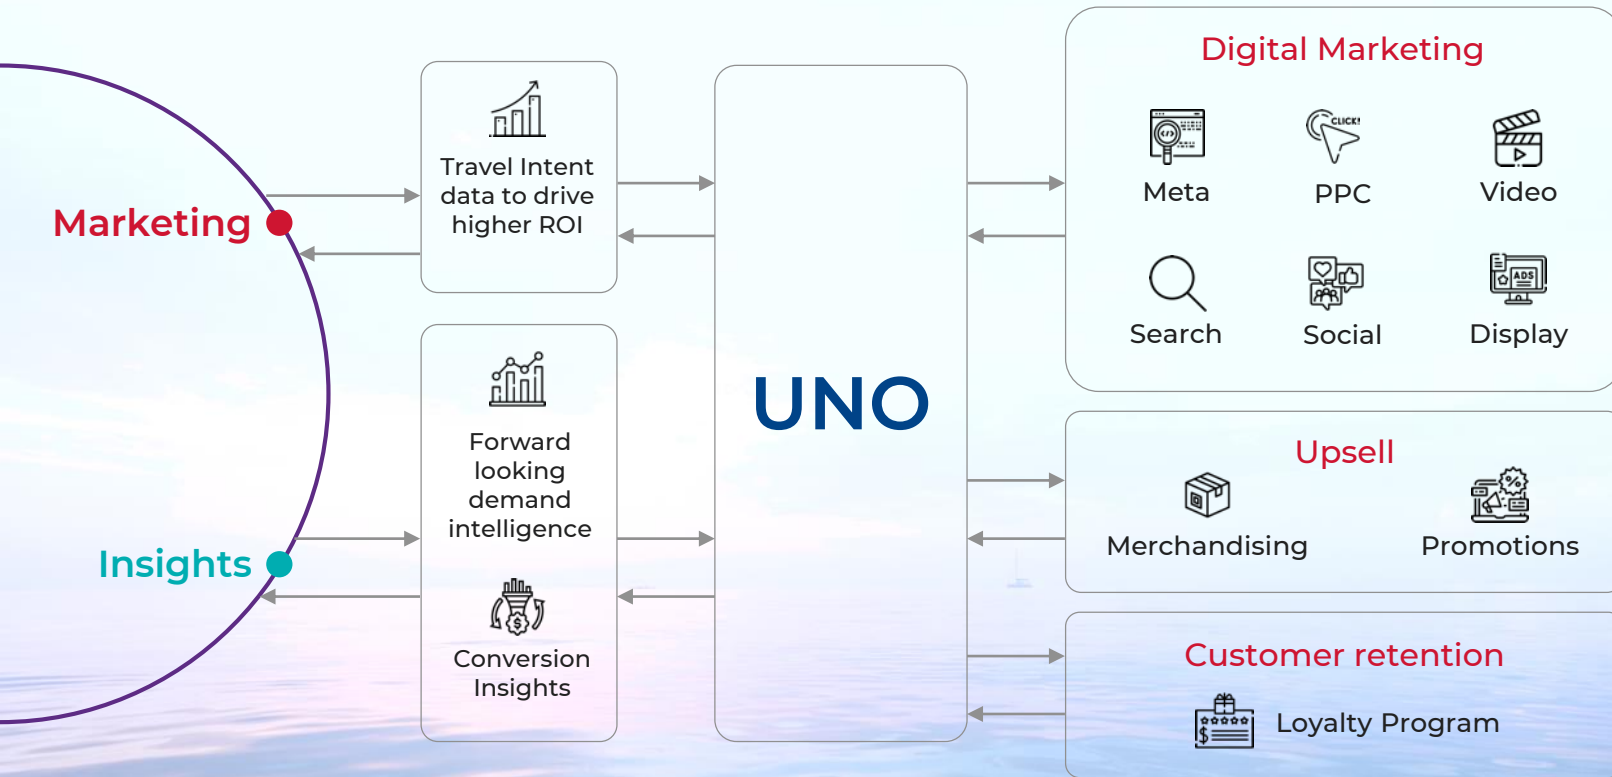

- One-click distribution
- Distribute to top OTA, GDS and demand partners
- Error reporting of connected demand partners
- Real-time data exchange
- Open APIs for demand consumption

Update all demand partners from a single platform

Hassle free content updates

Combine the Power of Data with Marketing to Drive Higher ROI

One set up for across 7 Google channels combined with insights give you higher ROAS

**Forward looking
demand intelligence**

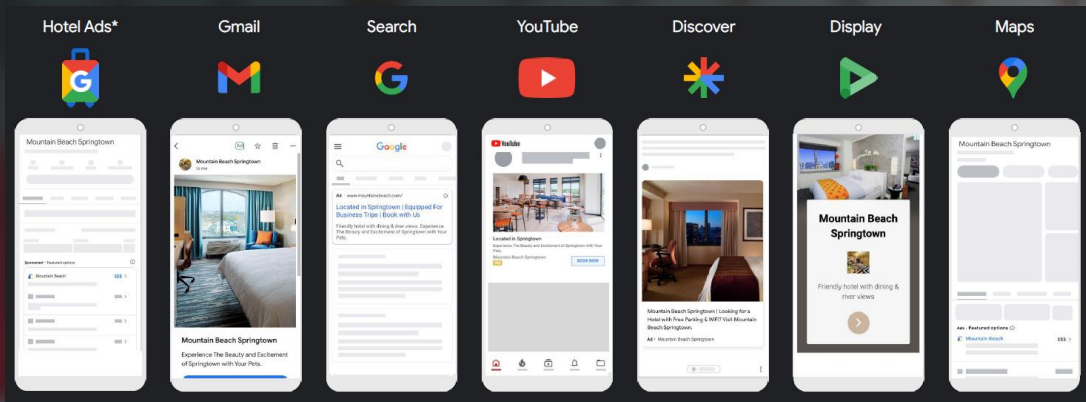

**Travel and Business
intent data**

**Validate every violation
with closed loop rate parity**

**Save up to 50% time in
tracking market changes**

Travel is
Delightful

But the
Booking Process
on Your Website is not

Samantha Lee
@samanthalee92

Your website isn't live anymore, I can't access my reservation details.

I suggest your hotel should hire a proper UI/UX designer for their website. It's not at all user-friendly.

Hotel #booking sucks. Made a reservation last night. It was confirmed and paid for. They cancelled it. Don't use these jokers.
